

POSITANO - The Latest Jewel of Crown Communities in Davao!

Positano, though Italian by name is a Nature inspired community. This is like owning a piece of a forest with the city life conveniences just a short drive away. It is like having a vacation in a mountain resort right in the middle of the city or viewing the deep blue sea by your window. The vision of the crawling green Mediterranean flora colors its hills and cliffs while the Palm and Citrus trees intersperse with colorful buildings. Such sight adds up to the beauty and charm of Positano.

Much like Positano in Italy, a sloping terrain gives a view of the blue sea. The Davao Gulf and the cityscape can be seen from Positano Peak giving a breathtaking view of the city amidst the lush green of nature. INTERESTED IN THIS PROPERTY? CONTACT US.
